

Pat George understands importance of Dodge City's educational system

I am writing this letter in support of Pat George and his campaign to represent the 119th District in the Kansas House of Representatives. Pat is a product of the Dodge City Public School system and a believer in our educational system in Dodge City. Pat understands the need for equal funding of our schools, while taking into account the special circumstances we face as a school district. As a parent, Pat feels the inherent need to continue to stress the importance of an excellent educational system in Dodge City - from elementary to secondary to post-secondary opportunities. Pat's willingness to involve those charged with

the educating of our youth shows his interest in guaranteeing we invest in the future of our schools while making sure tax-payers are not unduly burdened. Pat's involvement in the Tournament of Champions and support of our schools as a local businessman shows his interest in our schools beyond the campaign reason. Please join with me this Nov. 2 in casting your vote for Pat George and partnering with us in strengthening our public school system.
